To whom it may concern,

In the 2010 Burkina Faso data, v022 (the sample strata variable) doesn't seem to exist. Is there a way to set the survey weights without it?

Best,
Hannah

A new version of the dataset has been uploaded. The following variables are now set correctly in the new version:

HV022
HV023
V022
V023
MV022
MV023
