Hello DHS users,

I attempt to regress d106 on md121, using couple data from kenya but stata gives no observations. I dont understand why. I try to merge children with couple data using v001, v002 and v003, is that correct?

Dear User,

Please review the section on "Merging Datasets" on our website

<http://dhsprogram.com/data/Merging-Datasets.cfm>. After reviewing, if you still have questions, please feel free to post again. Thank you!
