Hello,

I've been searching recent men's questionnaires to see if any questions about experiencing or perpetrating violence have been added to the previous men's questionnaire. Are there any men's surveys that contain these types of questions? If not, are there any plans to add these to the DHS?

Best

Jocelyn

Dear User,

Attached is a spreadsheet containing completed surveys with domestic violence for both men and women. If you hover over the comments you can see what questions were asked. Some surveys may have survey specific questions. The Domestic Violence for Phase 7 is a module. It is located on our website <http://dhsprogram.com/publications/publication-DHSQM-DHS-Questionnaires-and-Manuals.cfm>

Not all surveys will incorporate the module.

Feedback is generally sought for questionnaires and modules at the beginning of a new phase. When that happens, it will be posted on our website and of the forum.

I hope this is helpful to you. If you have additional questions, please feel free to post again.

Thank you!
