Hello,

I am not able to identify data on the "Supplemental Module on Maternal Health Care" across several DHS country datasets: Malawi, Nepal, Bangladesh, Senegal, Tanzania and Haiti. The variables included in this supplemental module questionnaire are also not available in the DHS standard recode manual: https://www.dhsprogram.com/pubs/pdf/DHSG4/Recode7_DHS_10Sep2018_DHSG4.pdf

Please is the supplemental module on maternal healthcare only collected across specific countries? and why? because this impedes research especially around delivery care/respectful care at birth, which this module captures.

I would really appreciate any guidance on finding this data!!! Thank you so much!!1
