Dear Concern,

Hope you are doing well and staying safe during this pandemic.

My project was approved and I got an email and an authorization letter to download the DHS data.

I could download all the available data in the portal except the Geographic Data. The .shp and csv files seem to be available but the download option isn't appearing.

Example Dataset:

Bangladesh: Standard DHS, 2014.

Snapshot:

Any help in this matter would be highly appreciated.

Thanks and Regards.

You will need to log back into your account and request GPS data approval for the particular country or countries you are interested in.
