I have a question regarding the variable "De'jure" classification say in the variable " Media exposure" which has the following options:-

1. No exposure
2. Exposed to radio or TV
3. Both to radio and TV
4. De'jure

So, how I classify the "De'jure" in terms of media exposure? Is it no exposure group, exposed to radio or TV or both radio and TV?

Your clarification is highly appreciated.
