Subject: Clarification on electricity Posted by Khanjila on Wed, 27 Jul 2016 09:40:10 GMT View Forum Message <> Reply to Message

Hello,

I am using the 2014 KDHS for my dissertation. I am interested in the variable hv206 which shows access to electricity.

However, no information has been provided from the recode on whether hv206 refers to electricity from a generator or mains access or other source.

I would kindly like to know whether access to electricity in the KDHS refers to access to the mains or it is a generalization of all possible sources of electricity.

The DHS Program User Forum

Thank you. Khanjila
