Dear User,

Most of the DHS surveys have questions on gender roles. Concentrate on the DHS surveys and not SPAs, AIS or MIS surveys. If you do a search of surveys with Women's Status that should give you what you the surveys you need to look at. Attached is a partial list to get you started. If you hover over the comments, most comments contain the questions asked in the questionnaire. If you have additional questions, please feel free to post again.

Thanks!

Liz
