The Rwanda file you are referencing (RWMR41FL) is for the 2000 DHS, not 2005.

The variables SM213M and SM213Y are from Q213 in the Male questionnaire (in what month and year was your first child born?)

Please note that for country specific questions, the variables are generally named and coded in the same way as they were on the questionnaire. The variable will have a leading "SH" if the question was asked at the household level, a leading "S" if asked at the women's level, and a leading "SM" if asked at the men's level.
