Hi Tom,

Thanks for your reply. I am also working with Sarah on using these awfact for earlier surveys to create trend analysis (she wishes to pass on her apologies for not replying sooner to your previous responses). We are still experiencing some problems for earlier surveys where there is no wealth index and therefore no awfactw. Do you know if there is any way to create the wealth quintiles and the corresponding awfactw? The specific survey we are looking at is Indonesia 1997. Many thanks! Chloe
