Subject: Homes/samples participating in multiple surveys Posted by Ray Diaz on Sun, 27 Nov 2016 10:55:59 GMT

Good morning. I was wondering if: a) The DHS samples some of the same homes/individuals in multiple surveys overtime and; b) if same samples are included in multiple surveys, how can those samples be identified. I'm trying to make a longitudinal study, and it will be really helpful since the DHS has much information about the topics I want to do research on.
