I do have a question about the General prevalence of Smoking in Rwanda(DHS 2014/2015)
Referencing to Tab 3.8.1 (for women, using IR) and 3.8.2 (for men, using MR), we do fail to have
the General prevalence of Smoking in Rwanda

Either by separate products and the general smoking in general.

Your assistance in coding or producing the results with codes will be highly helpful
and much appreciated !

Thanks

Francois
