Hi,

Am trying to create the CWI using 2007 Zambia DHS.

```
. * CWI score = Alpha + Beta * v191
. gen cwi_2007 = -0.6714665 + 1.0443476*v191

. sum cwi_2007
```

Variable	Obs	Mean	Std. Dev.	Min	Max
-----+-----					
cwi_2007	7146	19388.11	112233.5	-121483.4	264237

The output seems incorrect and need assistance understanding where I have gone wrong

Many thanks
