Subject: Re: 2014 Kenya DHS province or county
Posted by molloyd2 on Sat, 11 Mar 2017 13:55:21 GMT

Hi,

I would like to drill down to the county level (e.g. Taita Taveta) instead of the province (e.g. Coast)
.
Unfortunately, I am finding that there is only one county listed in V101 for each province listed in
V024. For example for V024 = Coast, There is only one county appearing in V101, which for some
reason is showing as Nairobi.

Can you please advise on how I may generate results at the county level, specifically in Taita
Taveta. This would be much appreciated.

Thanks,

David
