Dear User,

We do have Couples files available as part of your downloads. If data on Domestic Violence was collected for a particular survey, they would appear in the Couples file.

We now also have some new YouTube videos to help users work with our data. They may be of interest to you. They can be found here:[https://](https://www.youtube.com/playlist?list=PLagqLv-gqpTMU3avlnBDodTWCazUR y4CT)

If you have additional questions, please feel free to post again.
