Thanks, that's all I needed to know. The prevalence of "Emotional, sexual, or physical violence" in the 15-19 year age group is 33.72% as opposed to 33.9% shown in Table 15.9 on page 509 in the chapter "Domestic Violence" of NFHS-3 Report (India DHS 2005-06).

I appreciate your patience.

Thanks again
