Dear User, A response from technical expert, Mr. Trevor Croft:

Quote:

1 to 35 are for each individual household member, with the maximum being 35 members in a household.

I would suggest that the user might want to use the Person's recode (PR) file. Where each household member has a separate record and thus you will only find hv108 without any suffix.

We also offer a series of YouTube videos to help users work with our data:[https://](https://www.youtube.com/playlist?list=PLagqLv-gqpTMU3avlnBDodTWCazUR y4CT)

The video series covers making sure you have the correct....

Video 1: Data File and Denominator

Video 2: Variables

Video 3: Recoding and Weights

Video 4: Software Specific Codes and Tabulation Commands
