Dear User,

HML2 Number of children under bednet previous night. (Referring to number of children under five years of age)

In Ghana DHS 2008 Table 12.2 Use of mosquito nets by children

Among children under five years in all households, the percentage who, on the night preceding the interview,

slept under a mosquito net (treated or untreated), under an ever-treated mosquito net, and under an insecticidetreated

net (ITN), and among children under five years in households with at least one ITN, the percentage who

slept under an ITN the past night, by background characteristics, Ghana 2008 (Page 224 final report)
