Dear Tom Pollum,

Many thanks for your response on my question. I am using the PR files now. I have one remaining question. In the DHS final reports, a section about educational attainment is usually included (e.g. in the final DHS report of Indonesia 2012, paragraph 3.2; <http://dhsprogram.com/pubs/pdf/FR275/FR275.pdf>). Are the tables in this section based on the de jure or the de facto population?

Thank you in advance,

Kind regards,

Anne Abbing
