Subject: How to decide the cohort year of vaccination Posted by manjshank on Tue, 11 Jul 2017 14:34:05 GMT View Forum Message <> Reply to Message

How is the cohort year decided for vaccines?

If the age group accounted for is 12-23 months in a DHS 2016 (data collected between June 2015 and January 2016), would the cohort year be 2014/2013? And why?
