Subject: Wealth index factor
Posted by Diana on Sat, 11 Nov 2017 15:30:28 GMT

Hi,
My name is Diana and i'm using DHS 2014 for Kenya. I need to use the wealth index as one of my covariates. How do i incorporate the wealth index factor? I have already syyset my data using v005. Why are some weights (v191) negative and how should i deal with this in my analysis?

Any help will be greatly appreciated.

Best,
Diana.
