Dear User,

The DHS website has a whole section on "Using Datasets for Analysis".

<http://www.measuredhs.com/data/Using-Datasets-for-Analysis.cfm>. If you are working with the Individual Recode File, for example India NFHS 2005-06, the file you would want to unzip is iair52sd.zip. In addition to the data, the unzipped file also contains other resources such as weighted and unweighted frequencies, a map of the data, documentation providing details about the data such as country specific variables and other useful information. You may also want to refer the the Standard Recode Manual

http://www.measuredhs.com/pubs/pdf/DHSG4/Recode6_DHS_22March2013_DHSG4.pdf and The Guide to DHS Statistics

http://www.measuredhs.com/pubs/pdf/DHSG1/Guide_to_DHS_Statistics_29Oct2012_DHSG1.pdf.
