Hi Ladys,

Found it!

I thought you were referring to general Recode Manuals which don't have specific information about this issue. I found the word document for the 2011 survey in the "etir61" folder and it confirms that the reporting of the dates are the same as in 2016.

I would like to thank you, Albert and Bridgette for your help and support.

Happy Holidays.

Regards,

Koray
