Subject: Re: Matching field worker and other files in 2016 NDHS Posted by dgodha on Fri, 26 Jan 2018 09:35:07 GMT View Forum Message <> Reply to Message

Hello Yubraj,

You will find these variables in the PR file- NPPR7HFL.DTA. They have taken three readings and also given the final systolic and diastolic readings for both men and women. The variables are:

shb219s shb219d shb226s shb226d shb230s shb230d shbpsw shbpdw shb319s shb319d shb326s shb326d shb330s shb330d shbpsm shbpdm

The DHS Program User Forum

Hope this helps
