Subject: Indonesian : child age in month
Posted by Hai R on Mon, 19 Mar 2018 05:17:56 GMT

Hello,

I am working for IYCF indicators for Indonesia DHS 2012, how to generated child age in month (using stata)? I could not find this variable yet in the data set. Which file is the best to use, if I want to work on IYCF practice among children aged 0-23 months.

many thanks for your help,

warm regards
Ha'i
