Here is a response from one of our Senior Data Processing Specialists, Lady Ortiz.

I suggest you visit our website <http://www.measuredhs.com/publications/publications-by-type.cfm> to download the final report of the country you are trying to analyze. In each DHS final report, there is a chapter on "Sample design" that you'd find very helpful. Furthermore, if the survey includes HIV testing, there will be another chapter on "HIV prevalence", that has a lot of information on the coverage of the HIV Test.

Please read these chapters, and I believe they will have the answers to most of your questions. If after reading the report, you still have questions please don't hesitate to contact us again.
