What is the problem? Following is how the questions were recoded:

```
{ Religion }  
V130 = Q118;      }  
if Q118 = 6 then V130 = 96 endif;
```

```
{ Ethnicity }  
V131 = Q119;  
if Q119 = 7 then V131 = 96 endif;
```
