Greetings -

I am writing to inquire about the timing of fieldwork associated with the 2011 Ethiopia Child Recode dataset (Stata). Using the code below, the year associated with fieldwork is 2003, and months cover April through September. Online however, it seems fieldwork covered October 2010 through May 2011.

Has anyone encountered this before? Is this a misspecified download file? Many thanks in advance to the community.
