Dear User,

A good place to begin is by accessing our website and clicking on the link for "data". From there you can click on the link for "Using Datasets for Analysis". That section contains many useful tips including videos for working with our data. In addition, please utilize The Guide to DHS Statistics [http:// www.dhsprogram.com/publications/publication-dhsg1-dhs-questions-and-manuals.cfm](http://www.dhsprogram.com/publications/publication-dhsg1-dhs-questions-and-manuals.cfm) and the Standard Recode Manual <http://dhsprogram.com/publications/publication-dhsg4-dhs-questionnaires-and-manuals.cfm>. Another great resource for your analysis is the IPUMS website <https://www.idhsdata.org/idhs/> Please post your code to the forum. Once others in the user community see your code, they may be able to offer suggestions.
