Subject: Re: Is there a Recode Manual for KR, PR and HW datasets?
Posted by nibiti on Thu, 10 May 2018 09:53:40 GMT

PS: I just checked again and there are variables in the PR dataset which are not explained in the official recode manual it seems. Examples are all "sh" variables from the PR dataset.

Still, I feel like I'm missing a list with all variables per recode.

Best
