Following is a response from Senior DHS Specialist, Fred Arnold:

All the questions in the woman's questionnaire in Section 7 (Other health issues), Section 8 (Sexual life), Section 9 (Husband's background and women's work), Section 10 (HIV/AIDS and other sexually transmitted infections), and Section 11 (Household relations domestic violence) are asked only in a subsample of 15% of households. This is described clearly in the national report.
