Dear User, Senior Technical Advisor, Trevor Croft recommends you take a look at this thread: message 8851

[\[url=https://userforum.dhsprogram.com/index.php?t=msg&th=4678&goto=8851&#msg\\_8851\]](https://userforum.dhsprogram.com/index.php?t=msg&th=4678&goto=8851&#msg_8851) which does about 90% of the work, producing the counts, from which the maternal mortality rates are calculated. It doesn't do the age adjustment or calculate the age adjusted maternal mortality rate or the ratio, but these can all be done in Excel from the counts.[\[/url\]](#)

This message does about 90% of the work, producing the counts, from which the maternal mortality rates are calculated. It doesn't do the age adjustment or calculate the age adjusted maternal mortality rate or the ratio, but these can all be done in Excel from the counts.
