Hello! I am analyzing India's NFHS data, particularly, PR and HR data, for 1998-99 and could not find the variable for "Date of Birth (CMC)". The data should under the variable "B3"; however, there is no such variable in either PR or HR data. I also looked at the labels of the variables in these two datasets, but again couldn't find a variable labeled "date of birth". Any help will be much appreciated.
