Dear User, Please look at your frequencies for M14. One of the reasons you may be finding N/A for M14(n) in the data is that the information was only collected for the last born child who was eligible to be in the health section. If you look at Q412 you will see that it's only for the last born child. The questionnaire is in the back of the final report. This question appears in Appendix F, P456. You can download the report from our website: https://dhsprogram.com/publications/publication-FR293-DHS-Final-Repo rts.cfm
You may also want to look at the following resources: The Guide to DHS Statistics https://dhsprogram.com/publications/publication-dhsg1-dhs-questionna ires-and-manuals.cfm,
The Standard Recode Manual https://dhsprogram.com/publications/publication-DHSG4-DHS-Questionna ires-and-Manuals.cfm,
using Datasets for Analysis https://dhsprogram.com/data/Using-Datasets-for-Analysis.cfm and a series of videos to help
guide you with your analysis https://blog.dhsprogram.com/dhsdataintro/.
The IUPMS website is also a great resource: https://www.idhsdata.org/idhs/ For specific assistance with Stata, please visit
You may also want to search the forum for [url=
http://www.cpc.unc.edu/research/tools/data_analysis/statatut orial/][url]
keywords which might help guide your analysis. After reviewing these resources, if you still have a question, please feel free to post
again. Thank you!
