Dear Liz,

Thanks for the mail. I have gone through the your guidance but still not getting figures given in the report.

I have used following conditions:

```
GET FILE='E:\NFHS-4\NFHS-4_SPSS\IAKR74FL.SAV'.

compute xy=(v008-b3).
sel if (xy>=6 and xy<=59 and b5=1).
compute rweight=(v005/1000000).
weight by rweight.

comp vita=2.
if (h33y>2012 and h33y<2017 and h33m>=1 and h33m<=12 and h33=1) vita=1.

comp vitamin=2.
if (vita=1 or (h33=2 and h34=1)) vitamin=1.
if (vita=1 or (h33y>2012 and h33y<2017 and h33m>=1 and h33m<=12 and h33=3 and h34=1))
vitamin=1.
var lab vitamin 'Given vitamin A supplements in last 6 .months'.

fre vitamin
```

I have request to you, please check syntax and how can get correct figures as given in the India NFHS-4 report (page 237 and percentage 59.5)

Thanks

Regards,

Kailash
