Subject: Re: How to Access GPS Data
Posted by admin on Tue, 25 Sep 2018 20:22:41 GMT

Hi Agnes, Your project is not approved for GPS datasets for Timor-Leste.

You will need to log back in, select your project and go to the link:

"Request additional countries/datasets for this project"

Then do the following:

  -- Choose "South and Southeast Asia"
  -- Click on "Show GPS datasets" and click "yes"
  -- Select Timor-Leste in the GPS column
  -- Click "save selections"
  -- Enter justification for GPS datasets
  -- Click "submit dataset request"

Then someone at DHS will need to approve your request.

If you still have issues please contact archive@dhsprogram.com
