Hello Sarah,

I would like you to clarify please. I do not use round 1996 (which the other user refers to below). The DHS reports for 1999/2000 and 2004 are not explicit about stratification (only about the number of EAs), though the 2004 report seems to suggest a stratification procedure is similar to the 2007 data (the 2007 report was explicit).

Thanks,

Anna
