I have a question on the documentation for the 2016 Uganda DHS (HR) (UGHR7AFL.DTA).

In the codebook (UGHR7AFL.MAP), I see variable SH22 that asks, "Ever been vaccinated for HPV" with 0 as no, 1 as yes, 8 as don't know and 9 as missing. However, in the actual .dta file, I see that sh22 has 27 different options from sh22_01 to sh22_27, with each labelled "ever been vaccinated for hpv". I'm wondering if there's any sort of sub-labelling or codebook in addition to UGHR7AFL.MAP where I can differentiate the responses to this question.

Thank you very much!
