Hi!

Similar with the last query, I've also used the 2013 Philippine Demographic and Health Survey and planning to submit it for publication but the journal is also requesting for a statement of ethical approval. In the final report, it was mentioned that the survey protocol were reviewed and approved by the Institutional Review Board of ICF International. However, I would further like to be enlightened if technical and ethical clearance approval were also done in the Philippines.

Thank you so much for assisting me on this matter.
