Dear all,

I would like to know if the question 1001 ("In your opinion, what is the most serious health problem in your community") of the Tanzania DHS is specific to this DHS questionary or might be found in other ones.

I first looked into the DHS Recode Manual and in few other DHS questionaries and could not find this question.

I would like to be sure that I did not miss it. Does anyone know how to be 100% sure that this question only exist in Tanzania DHS please ?

Thank you
