Sandra,
The way dates are reported is the same in 2011 and 2016 surveys. You can also see it from the survey documents, see my response on Dec 19th;
"I found the word document for the 2011 survey in the "etir61" folder and it confirms that the reporting of the dates are the same as in 2016."
So, the conversion from Ethiopian to Gregorian (only for years) should be the same for 2011 and 2016 surveys.
Best,
Koray
