Following is a response from Senior DHS Stata Specialist, Tom Pullum:

We have confirmed the list of occupation codes in the 2012 and 2016-17 surveys with the survey manager and data processing expert for those surveys. The attached matches with the value labels for those surveys. We cannot find a corresponding list for the earlier surveys, and there were probably some differences, because some of the numerical codes found in the earlier surveys do not match the possible codes in the more recent lists.

It's unfortunate that we do not seem to have those earlier value labels. Perhaps you can find some archived reports or information from the Haiti statistical office from those earlier dates.
