Dear Liz,

I ran into the exact same problem while using the survey from 2017 and would be glad if you clarified the issue. Also I wondered, which kind of stoves are actually considered when it comes to question SH121K ("has improved stove?"). I saw the picture you attached to the earlier answer, but I would be surprised if only these specific stoves are regarded as improved.

Thanks in advance for your help.  
Nathanael
