Hi Bridgette,

Apologies for the multiple inquiries.

I downloaded the Individual Recode zip file for Malawi 2010 DHS. The folder contained these files:

MWIR61FL.DOC
MWIR61FL.DTA
MWIR61FL.FRQ
MWIR61FL.FRW
MWIR61FL.MAP

The same goes for the Male Recode zip file.

Yet none of these formats works with the Select Utility tool. I'm using STATA and would need the files to be in DAT format (I think?). Please help!

Best,

Jessica
