Subject: Running DHS Datasets on STATA
Posted by Ogah on Wed, 17 Jul 2019 10:35:21 GMT

Hello there,

I need help on how to run STATA version of DHS datasets on my PC. I have downloaded and unzipped the file. But I got an error "NGFW72FL.DAT not found" when I ran the .DO file. Please what is the likely problem and how do I resolve it.
