That is great thank you so much! It is possible to look at a specific area within the rural subgroup - for example Tigray only? Oh I beg your pardon I did find that under 'region' thank you - the only part that remains unclear is which regions fall into the rural and which fall into the urban category? Similarly there seems to be another category: 1=capital, large city 2=small city 3=town and 4=countryside - is it possible to know how the 11 regions fall into these categories?

1 more question - what does a category mean that starts with NA for example category called 'NA - de facto place of residence' ? - thank you
