As per your advice, I have entered "tab s555 if v008-b3<72 [iweight=v005/1000000]" using BR file "IABR74FL.DTA" to reproduce the value 53.6 which is placed at the end of Table 9.18 in NFHS India National Report (Page no. 287). But unfortunately, the aforementioned code is producing 54.07% as yes which is not matching with the figure 53.6% as in the report. I have downloaded the BR file freshly from DHS forum and tried the code but that's not working. Kindly look into the matter.
