Hello,

The DHS 2003-04 GPS datasets do not seem to be available for Madagascar even though the Stata file contains cluster numbers, regions and cluster altitude. I have already sent an email to gpsprojects@dhsprogram.com but the only answer I received is "it's not currently available". No information on why, when it will be etc. Is there any other way to obtain the GPS datasets for the clusters of DHS 2003-04?

Thanks

Tiana
