Hi,

I am new on using DHS data. However i found some variable that i need to use is missing in dataset

i am using dataset IDIR71FL

the variable are

v761 and v833A(Condom used during last sex with most recent partner)

Also i want to know how to get statement on ethics approval fot DHS Data , Im using DHS data 2017 for Indonesia ?

Really appreciate if you could help me.

Thank you
