Subject: Armenia 2015-2016 DHS womens weights Posted by Mary on Mon, 13 Jul 2020 15:43:36 GMT View Forum Message <> Reply to Message

The womens weights v005 in the childrens file: AMKR72DT sum to 1672 when divided by 1,000,000 not the number of cases 1724. I would like to know if it is common that the normalized weights do not sum to the number of cases in DHS surveys.
